Technical parameters

Product model: 4060	Print head: TX800XP600	Print size: 40*60
Number of print heads: 3	Mainboard: Hanson	Output color: CMYK W V
Print quality: pictures with a resolution of 720/1440 2880/5760 can be	Printing platform: adsorption platform	
Blocking: automatic stirring/shaking	Print head cleaning: automatic/manual	
Print mode: unidirectional/bidirectional	Lifting function: platform lifting	
Interface: Gigabit fiber;	Product weight: 52 kg	Ink monitoring: low ink alarm
Print height: 14cm	Curing system: LED UV lamp curing method	
Transmission system: silent guide rail high precision lead screw;		
Power supply: AC220/110.50Hz~ 60Hz	Operating system: win7/8/10. etc.	
File format: ttf, bmp, pdf, eps, jpg, etc.	Cylinder: Support printing	
Output software: professional software	Ink supply system: Automatic ink supply	
Inkjet technology: intelligent variable droplet deposition		
Size: 75*75.5*56.3 cm	Altitude measurement: Automatic laser altimeter
